

XI- Series

High Capacity Scales

XI-Series High Capacity Scales

The ideal choice for industrial weighing applications

Rugged die-cast aluminum construction

Automatic calibration

Simple, push button kg/lb conversion

Rechargeable 6V battery or AC powered (adapter included)

Menu settings. All balance settings are changed outside the weighing menus. This prevents inadvertent changes of the parameters. Security settings also allow the user to block access to the menu structure or inactivate all keys.

Ideal for most environments. Stainless steel weighing pans make cleaning a snap. Built-in overload protection prevents damage to the weigh cell. Standby mode conserves power. Analytical models include glass draft shield with easy-sliding doors for maximum ease and access.

Wash-Down
